

# CocoaBiome Atlas

Interactive Atlas of Microbial Diversity  
Associated with Cocoa fermentation

## YEAST ATLAS

Explore the global distribution of yeasts reported during cocoa fermentation

[OPEN COMMON  
YEAST ATLAS](#)

[OPEN UNIQUE  
YEAST ATLAS](#)

## LAB ATLAS

Visualise and compare lactic acid bacteria (LAB) associated with cocoa fermentation worldwide

[OPEN COMMON  
LAB ATLAS](#)

[OPEN UNIQUE  
LAB ATLAS](#)

## AAB ATLAS

Discover the diversity and geographic distribution of acetic acid bacteria in cocoa fermentation

[OPEN COMMON  
AAB ATLAS](#)

[OPEN UNIQUE  
AAB ATLAS](#)

## ABOUT COCOABIOME ATLAS

CocoaBiome Atlas is an open biodiversity informatics initiative that mobilises, harmonises and visualises microbial diversity data associated with cocoa fermentation worldwide. It integrates data from scientific literature and biodiversity resources to support research, conservation and sustainable cocoa value chains.
